

an inflatable how-to guide by studio rat

Dunlop

sealed

think, pool floaties!

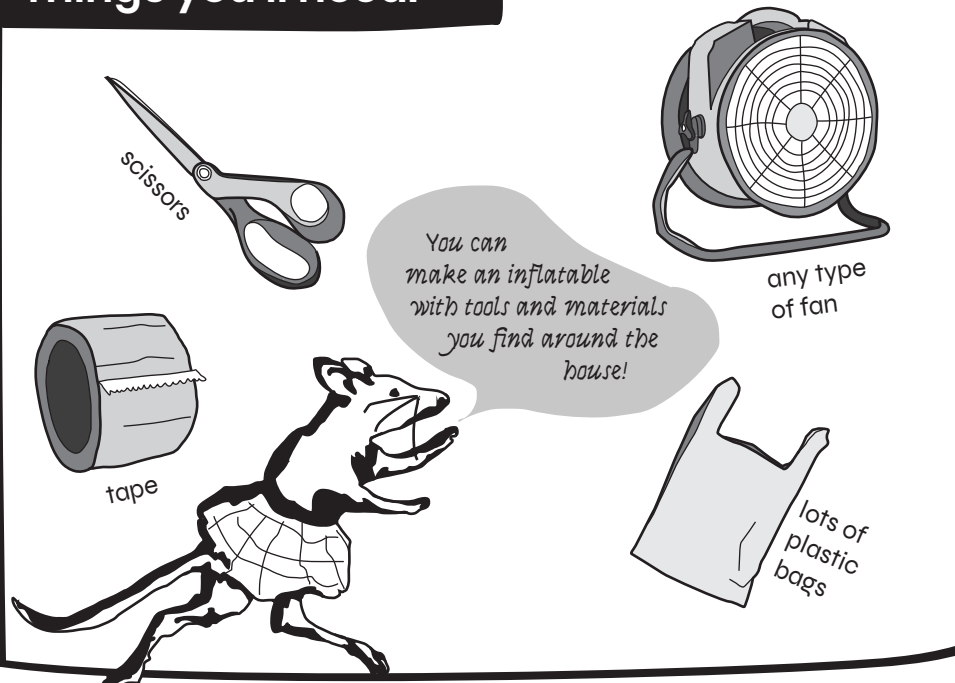

Lanchester

continuous air flow

habitable

First things first, you should know there are two types of inflatables; Dunlop and Lanchester. This guide will teach you how to make the "Lanchester" style. Use this as a starting point and keep exploring!

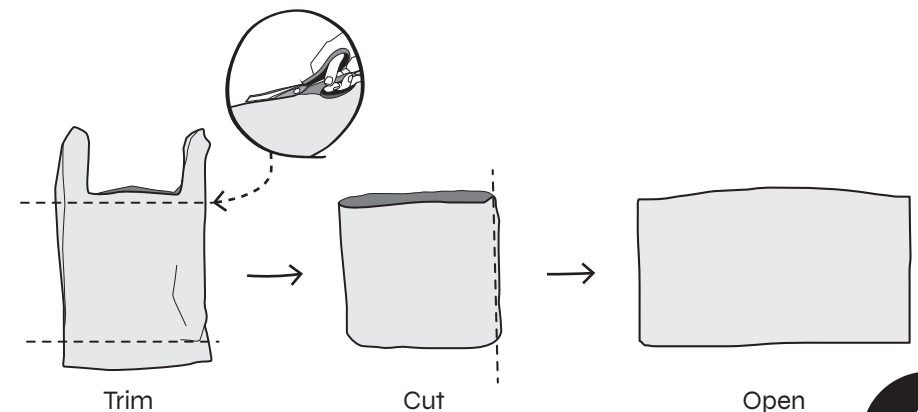

Things you'll need:

HOW TO MAKE A QUILTED INFLATABLE

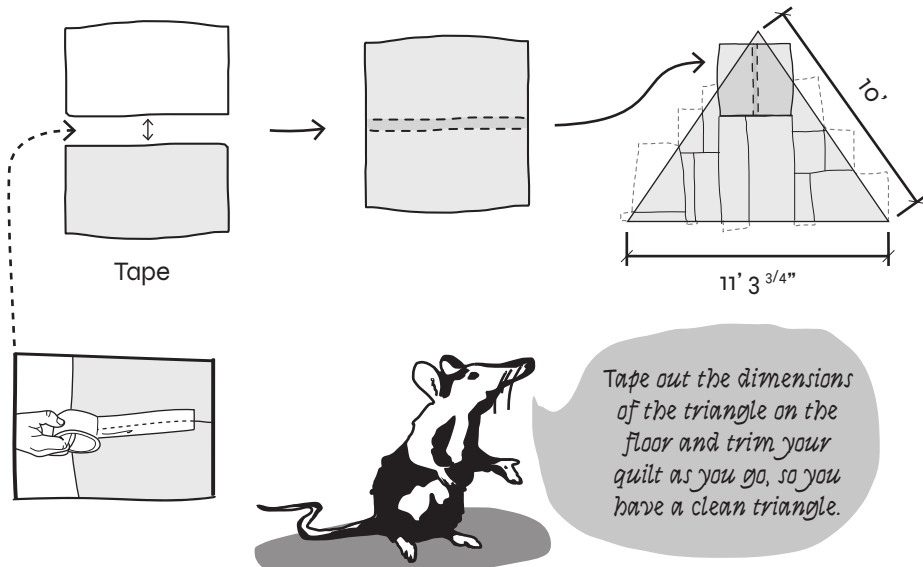

1

Prepare your Material

2

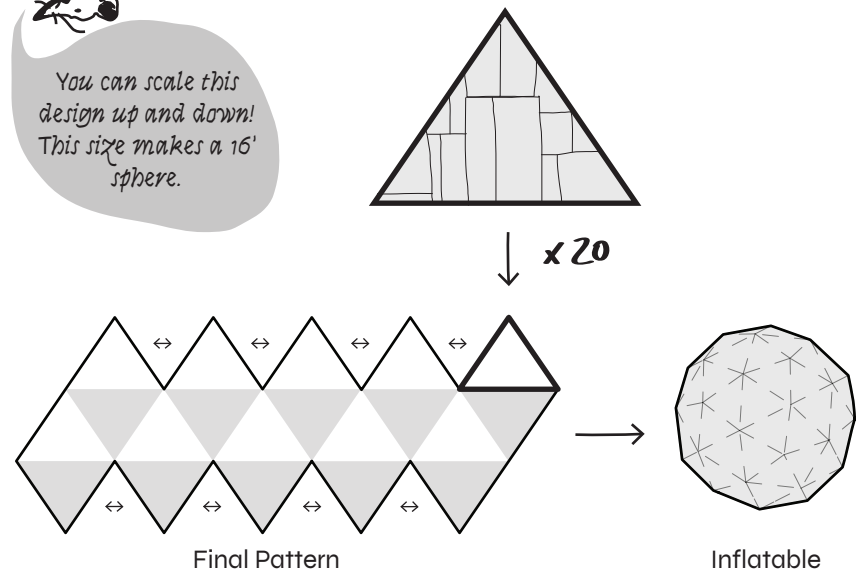

"Quilt" Together Plastic Bags and Sheeting

3

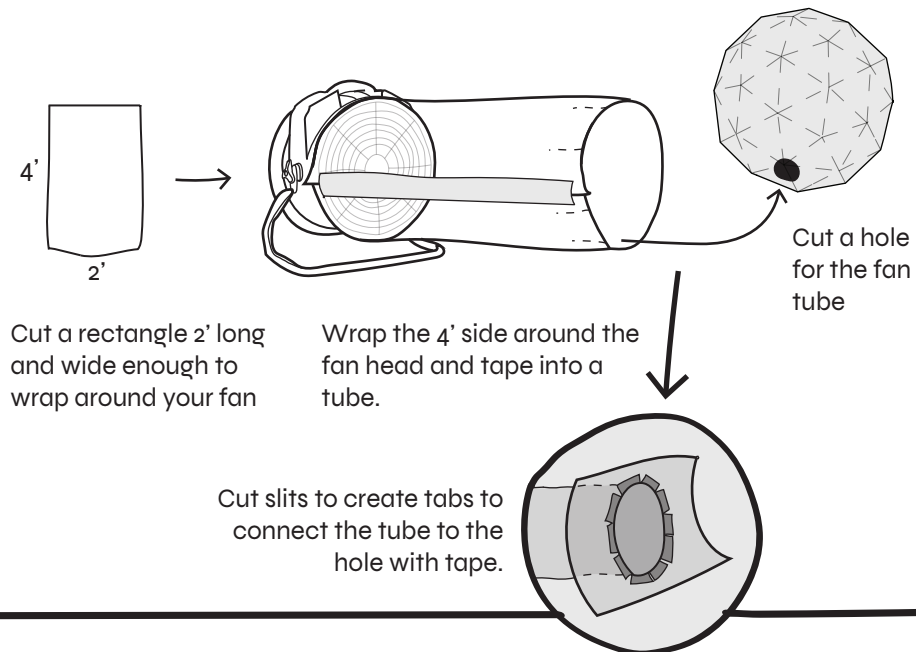

Assemble the Inflatable

You can scale this design up and down! This size makes a 16' sphere.

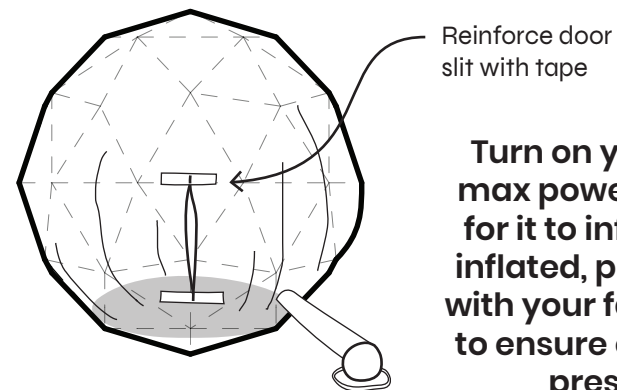

4

Construct the Fan Tube

5

Time to Inflate!

Turn on your fan at max power and wait for it to inflate. Once inflated, play around with your fan's setting to ensure optimal air pressure.
