

CASTING A NET CASTING A SPELL

We cast our net wide and caught the sun.
What can we do with all that energy?

We cast our net as one casts a spell.

What happens in the net's shade?
What is activated by the sun's energy?
Right above us.
Changing the color of the light,
casting shades on the pavement.

What could you catch if you casted a net that big?

What do you want to trap?
What spell are you casting?

A net that big is a collective effort.
It's not mine, not yours, it's ours.

What can we catch together?

Collective net making.
Collective shadow casting.
Collective spell casting.

We cast spells in the shadow.

Lanzamos nuestra red y atrapamos al sol.
¿Qué podemos hacer con toda esa energía?

Lanzamos una red como se lanza un hechizo.

¿Qué sucede en la sombra de esta red?
¿Qué se activa con la energía del sol?
Justo sobre nosotros.
Cambiando el color de la Luz,
proyectando sombras en el pavimento.

¿Qué atraparías si lanzarás una red así de grande?

¿Qué quieres atrapar?
¿Qué hechizo estás lanzando?

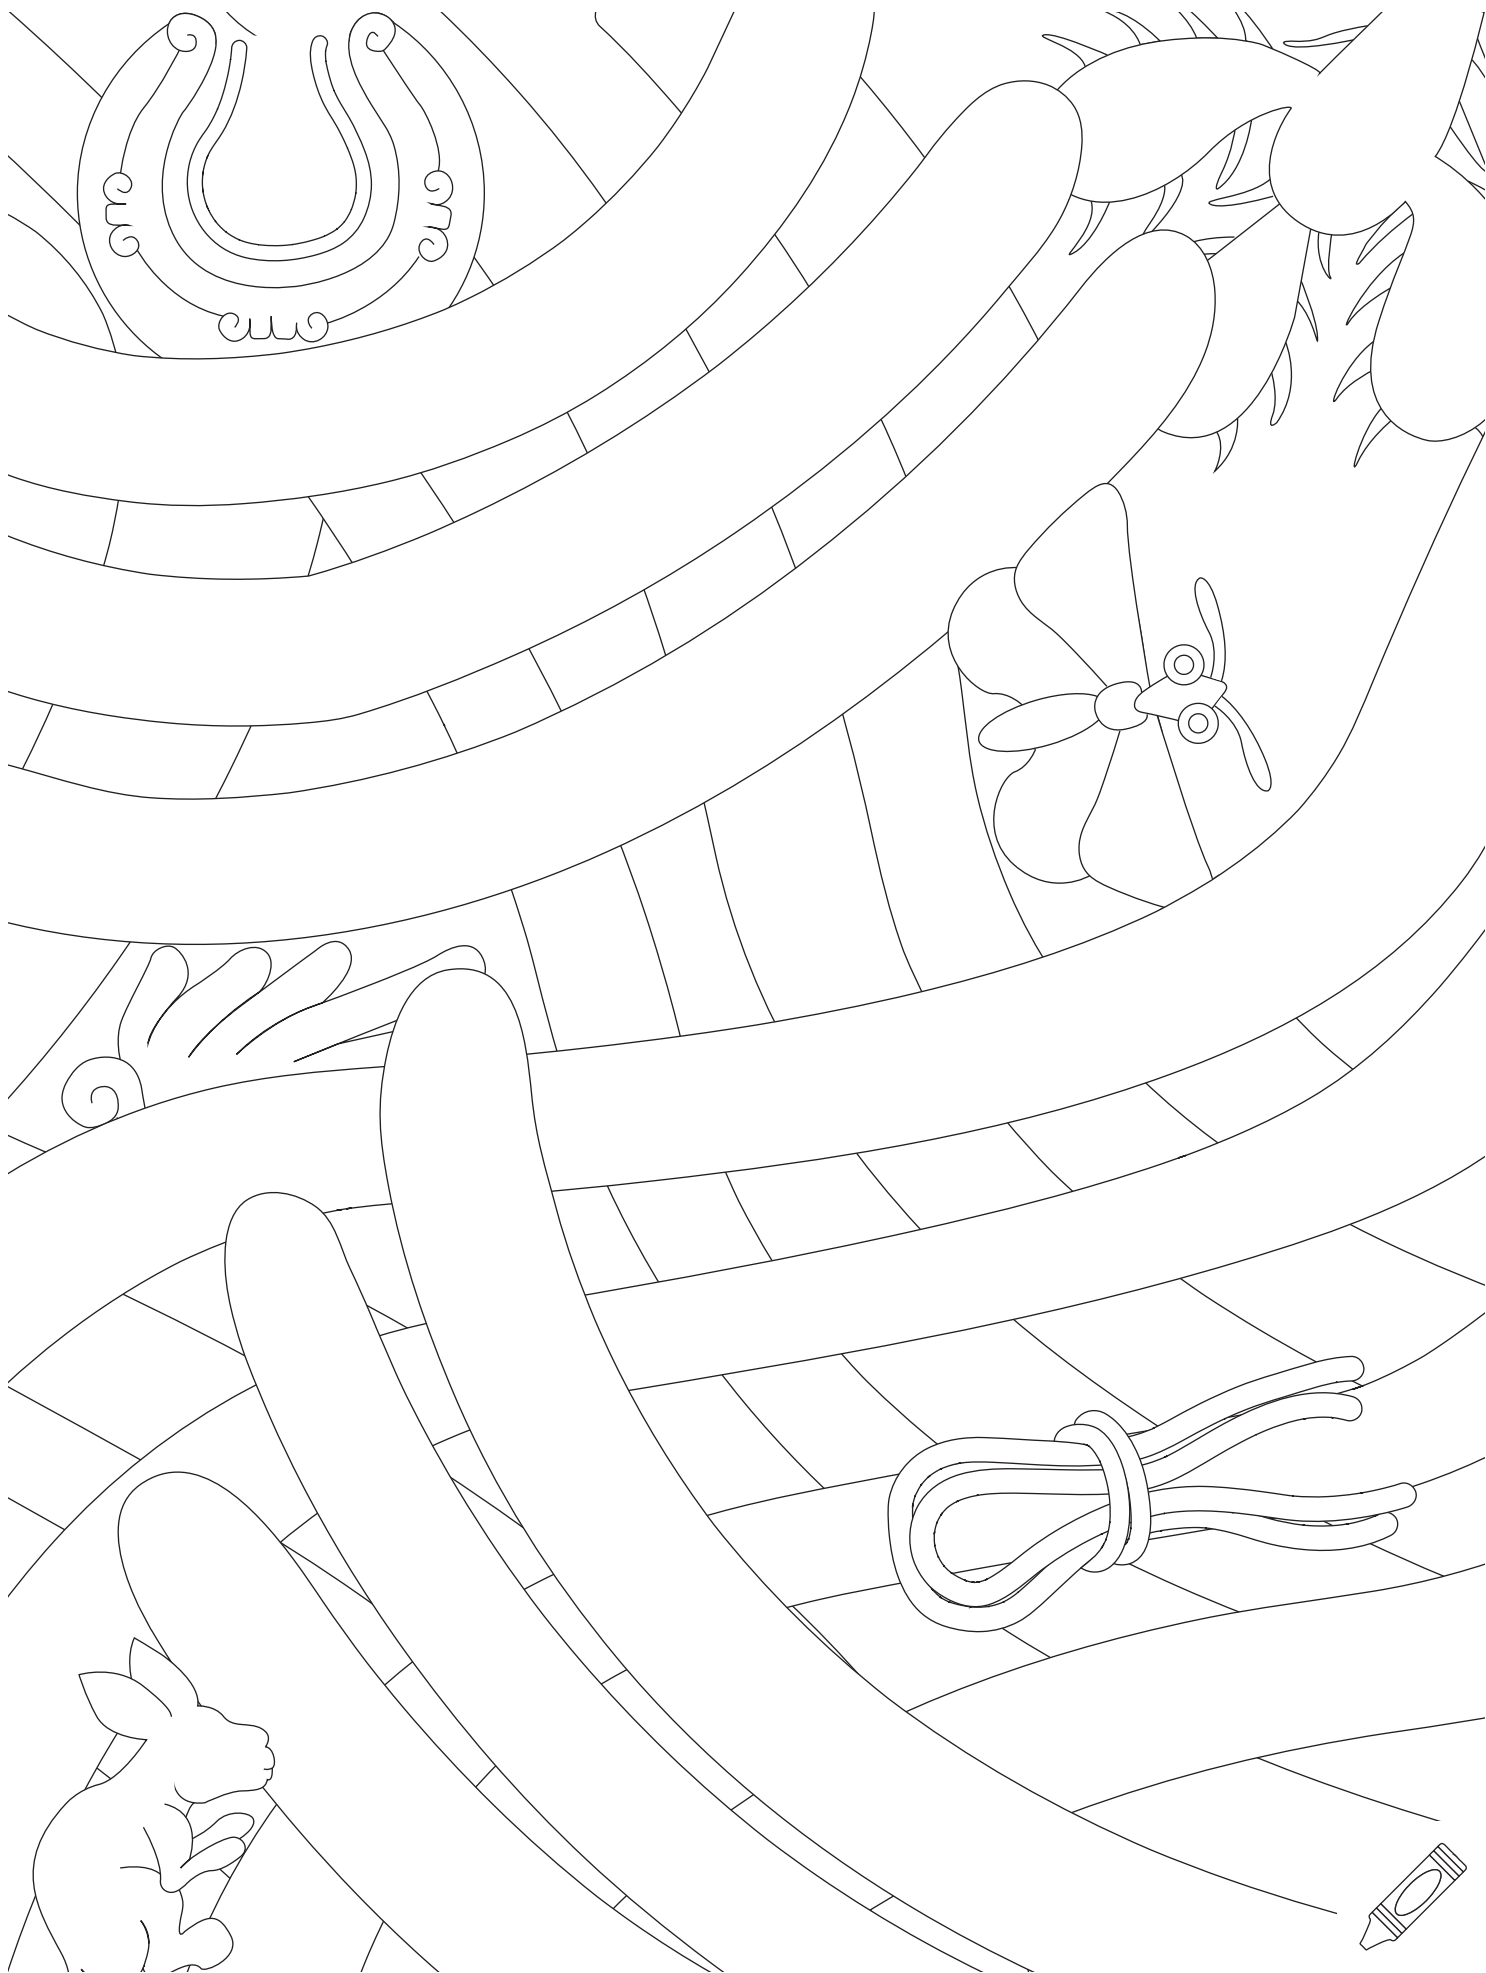

Una red así de grande es un esfuerzo colectivo.
No es tuyo, no es mío, es nuestro.

¿Qué podemos atrapar juntxs?

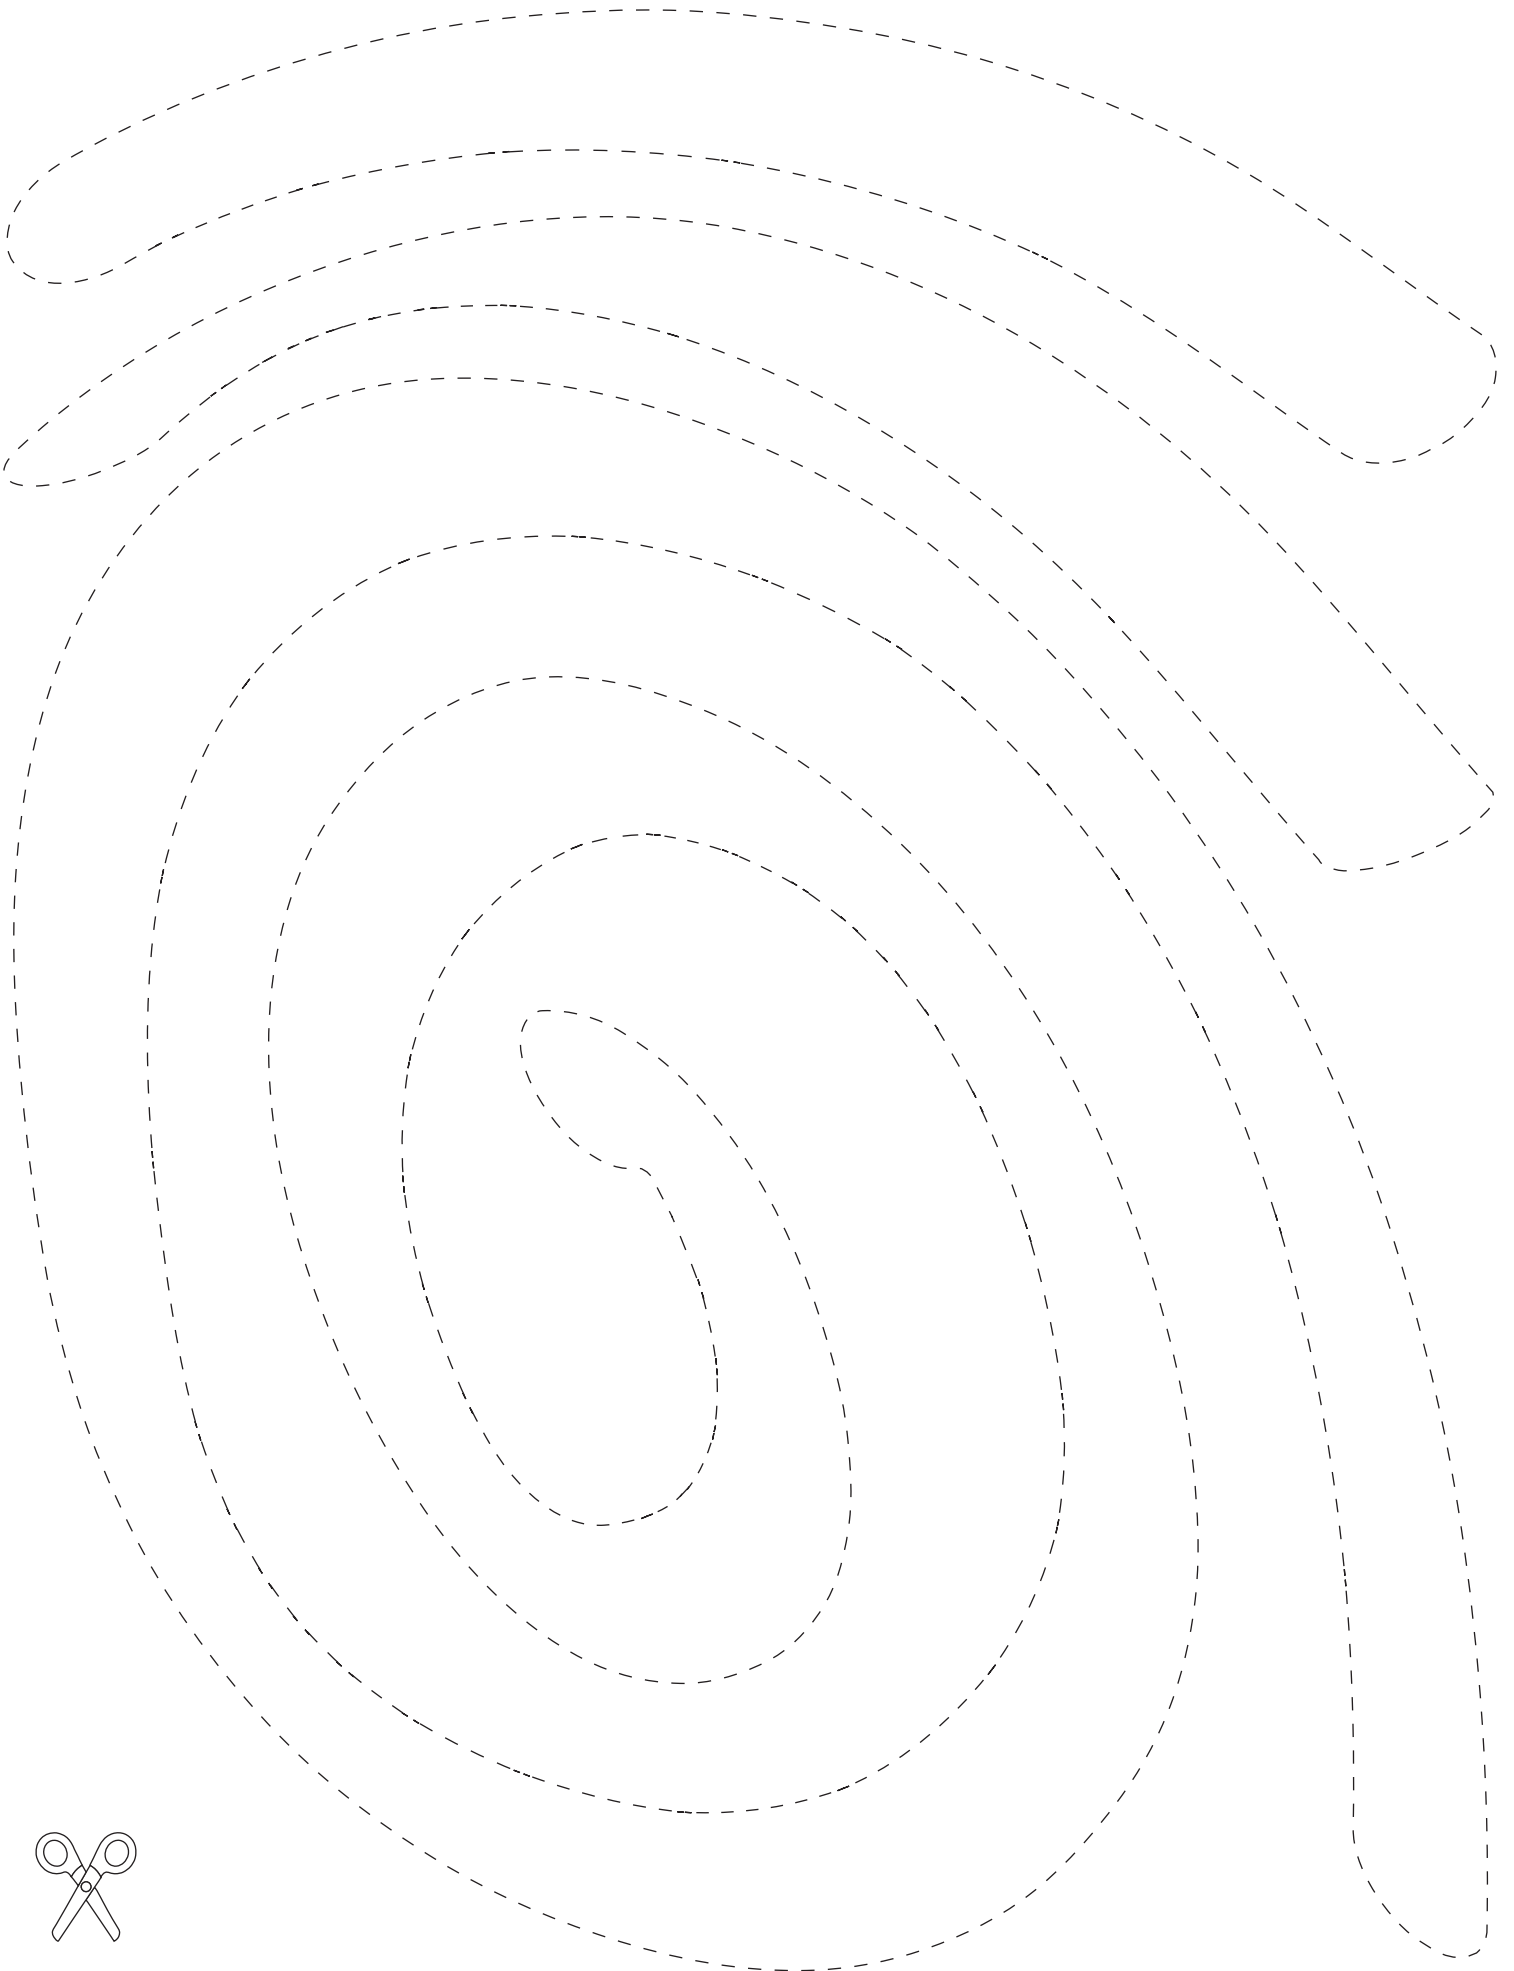

Hacer redes en juntxs.
Proyectar sombras juntxs.
Lanzar hechizos juntxs.

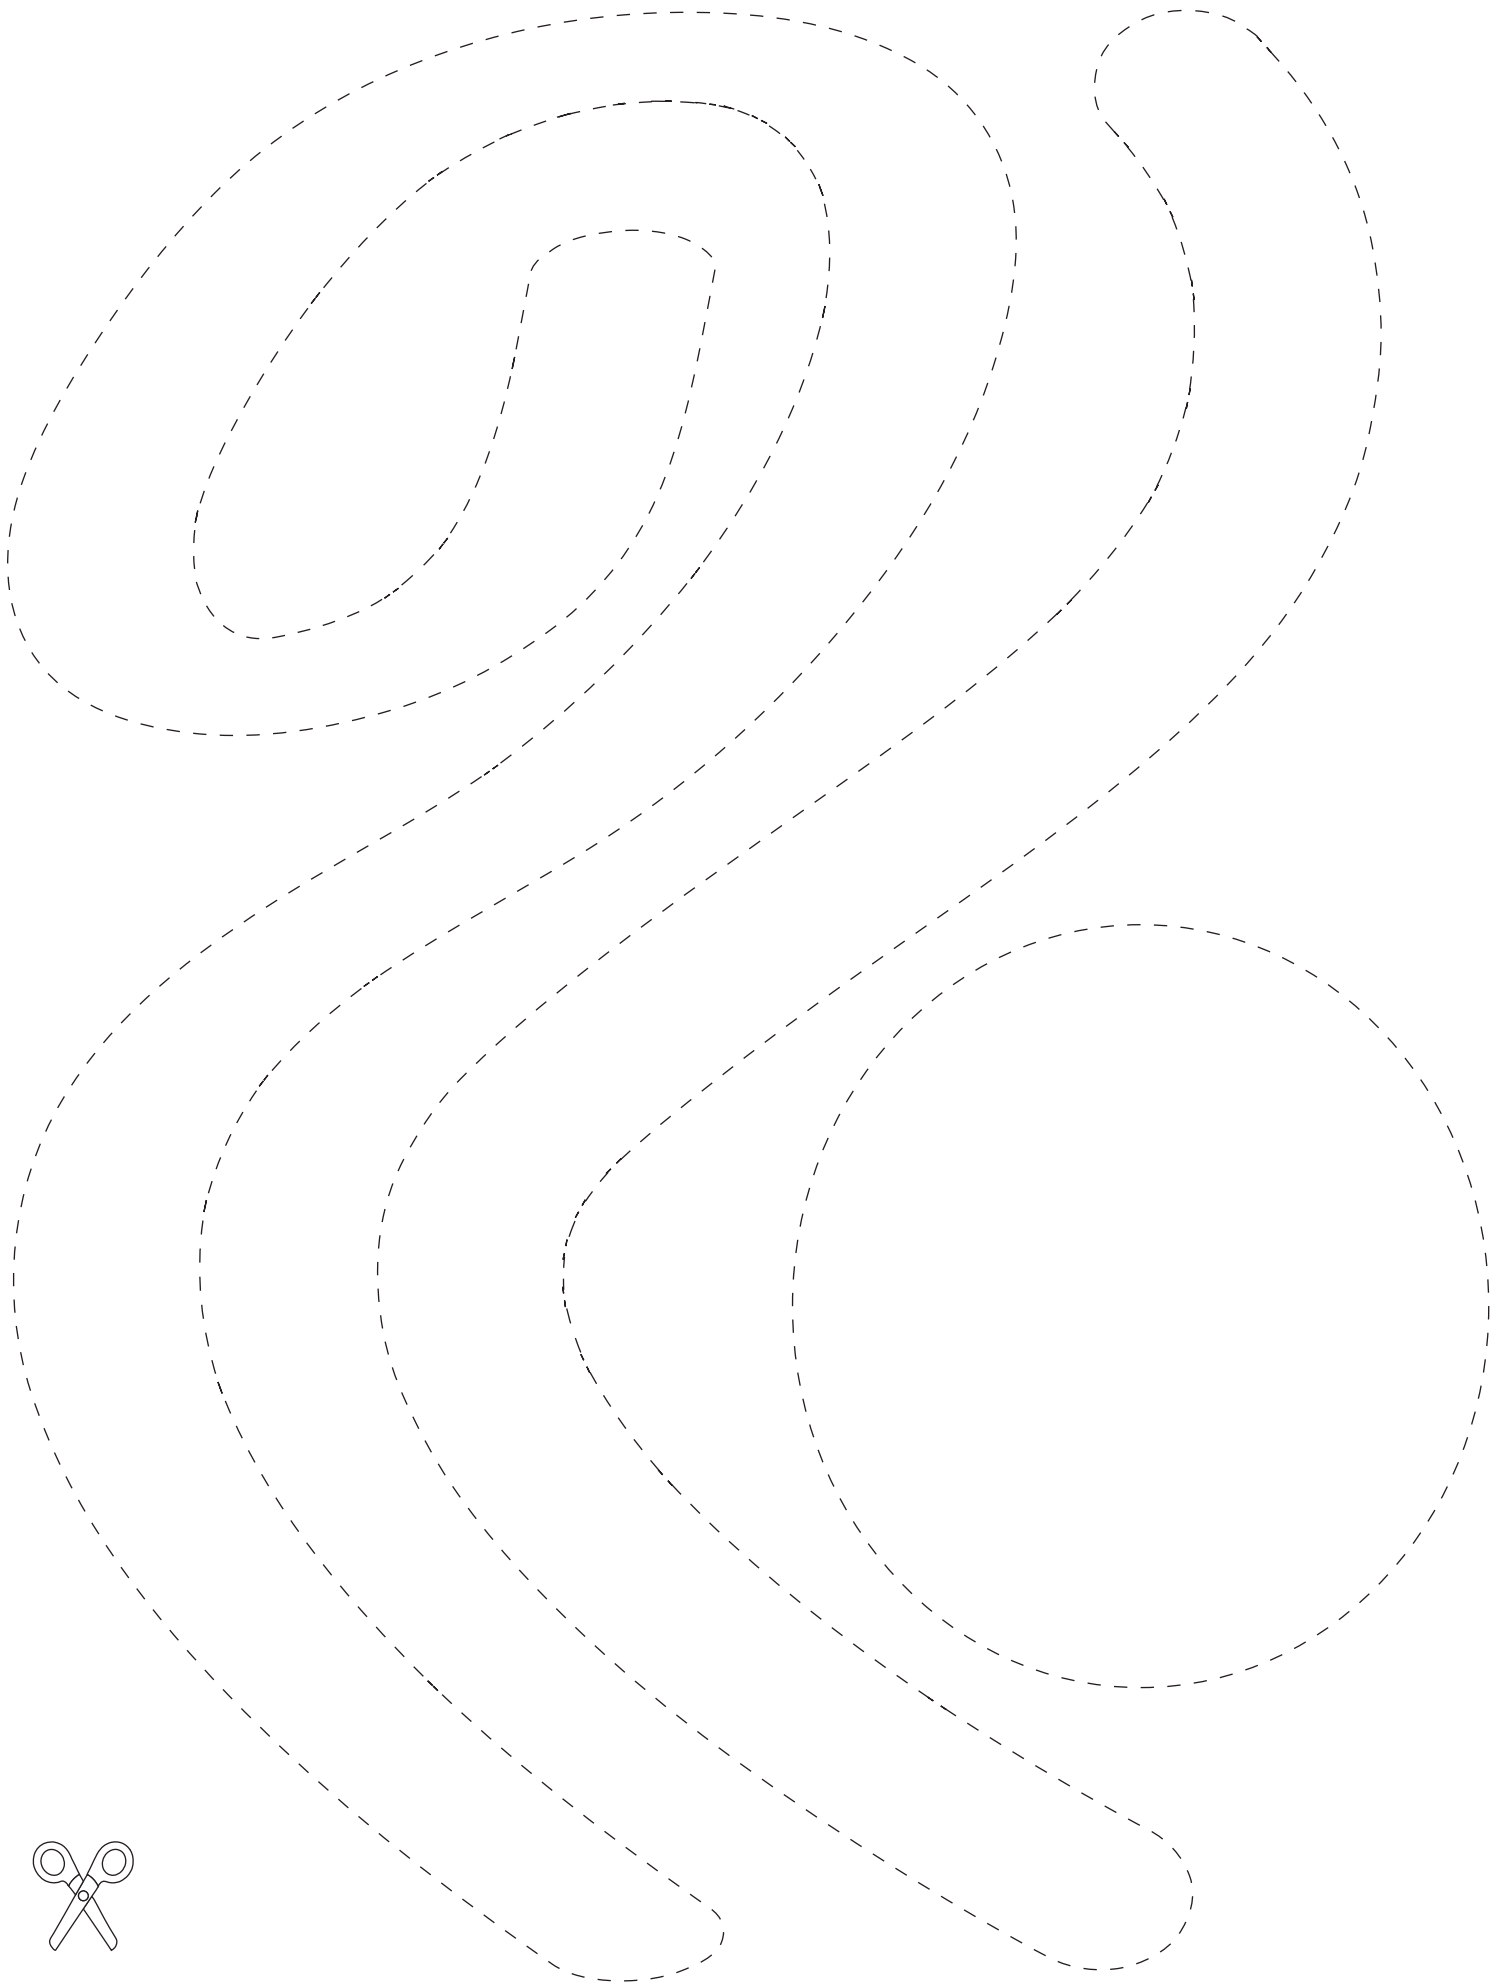

Lanzamos hechizos en la sombra.

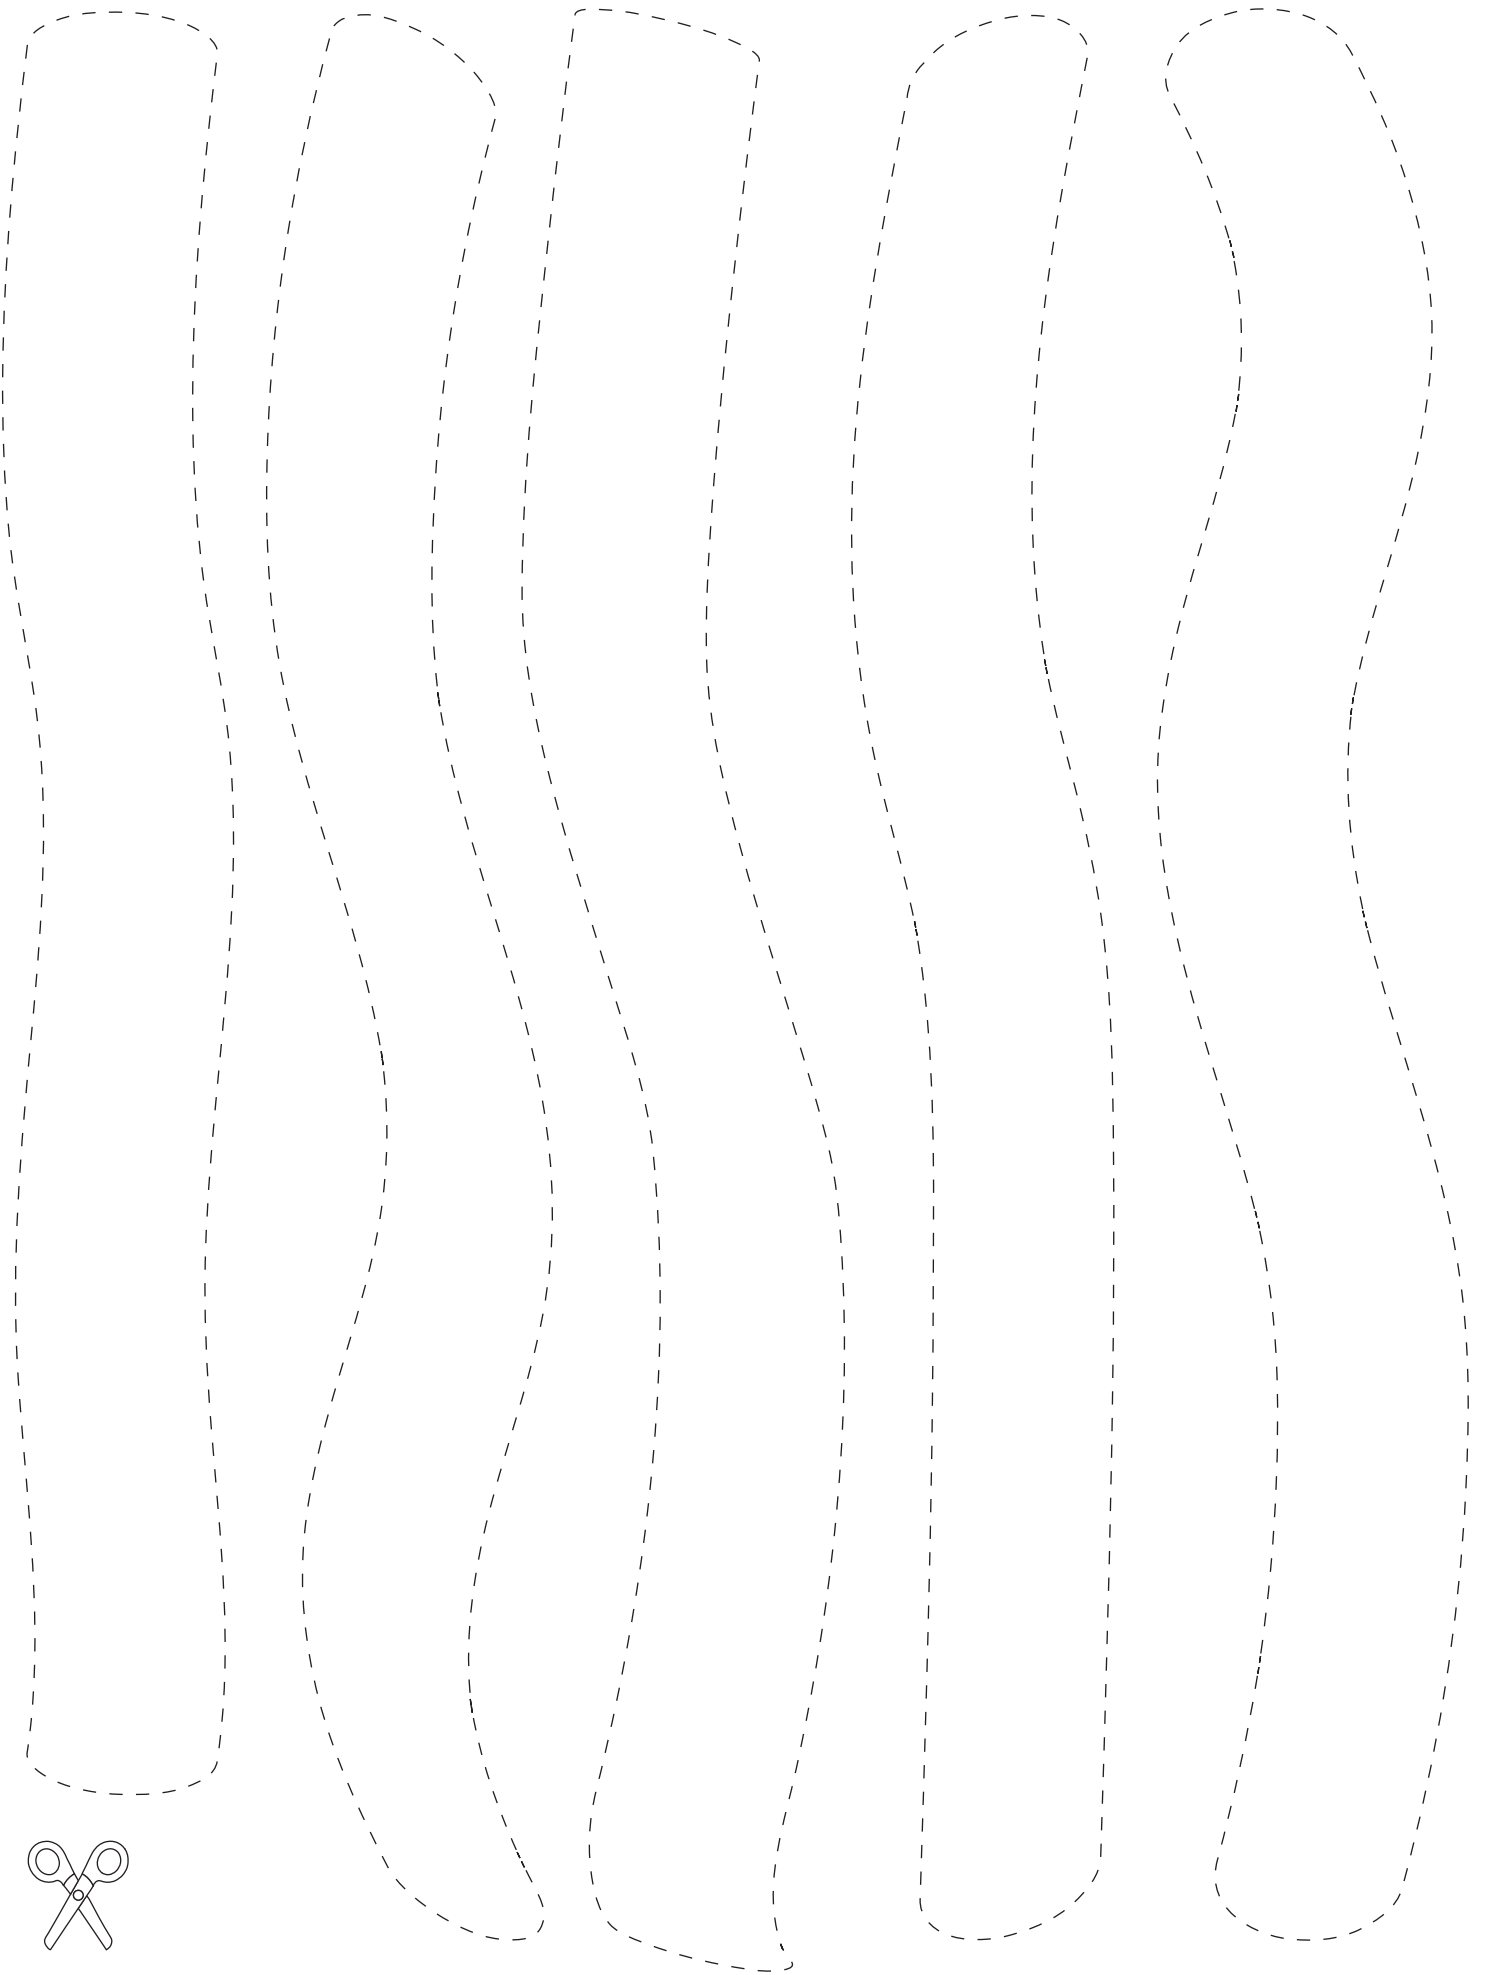

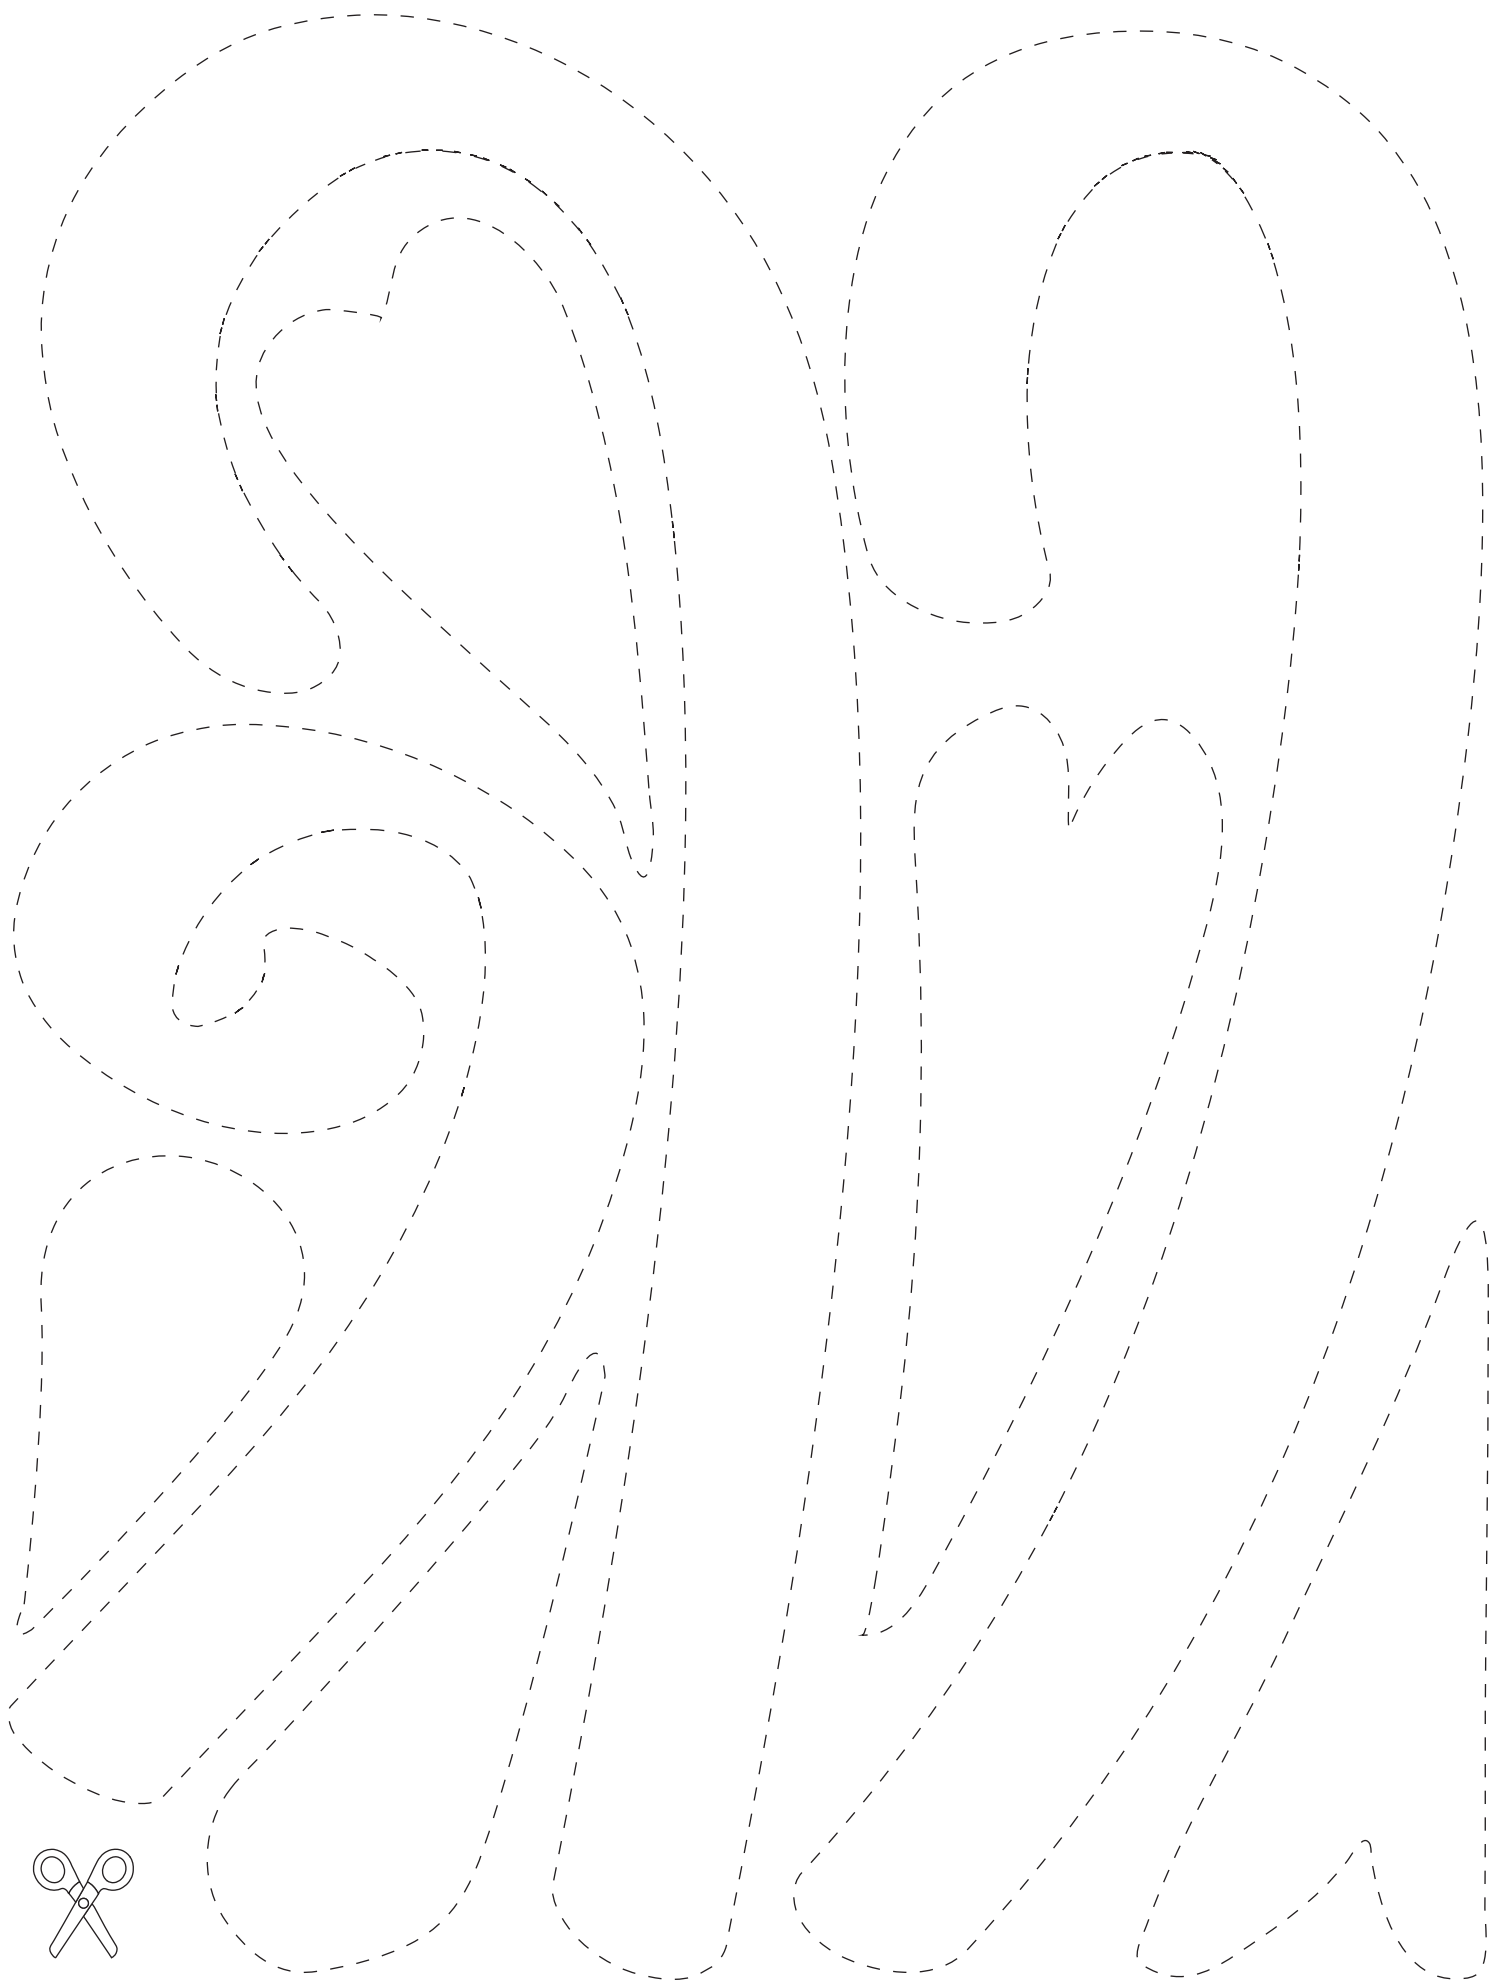

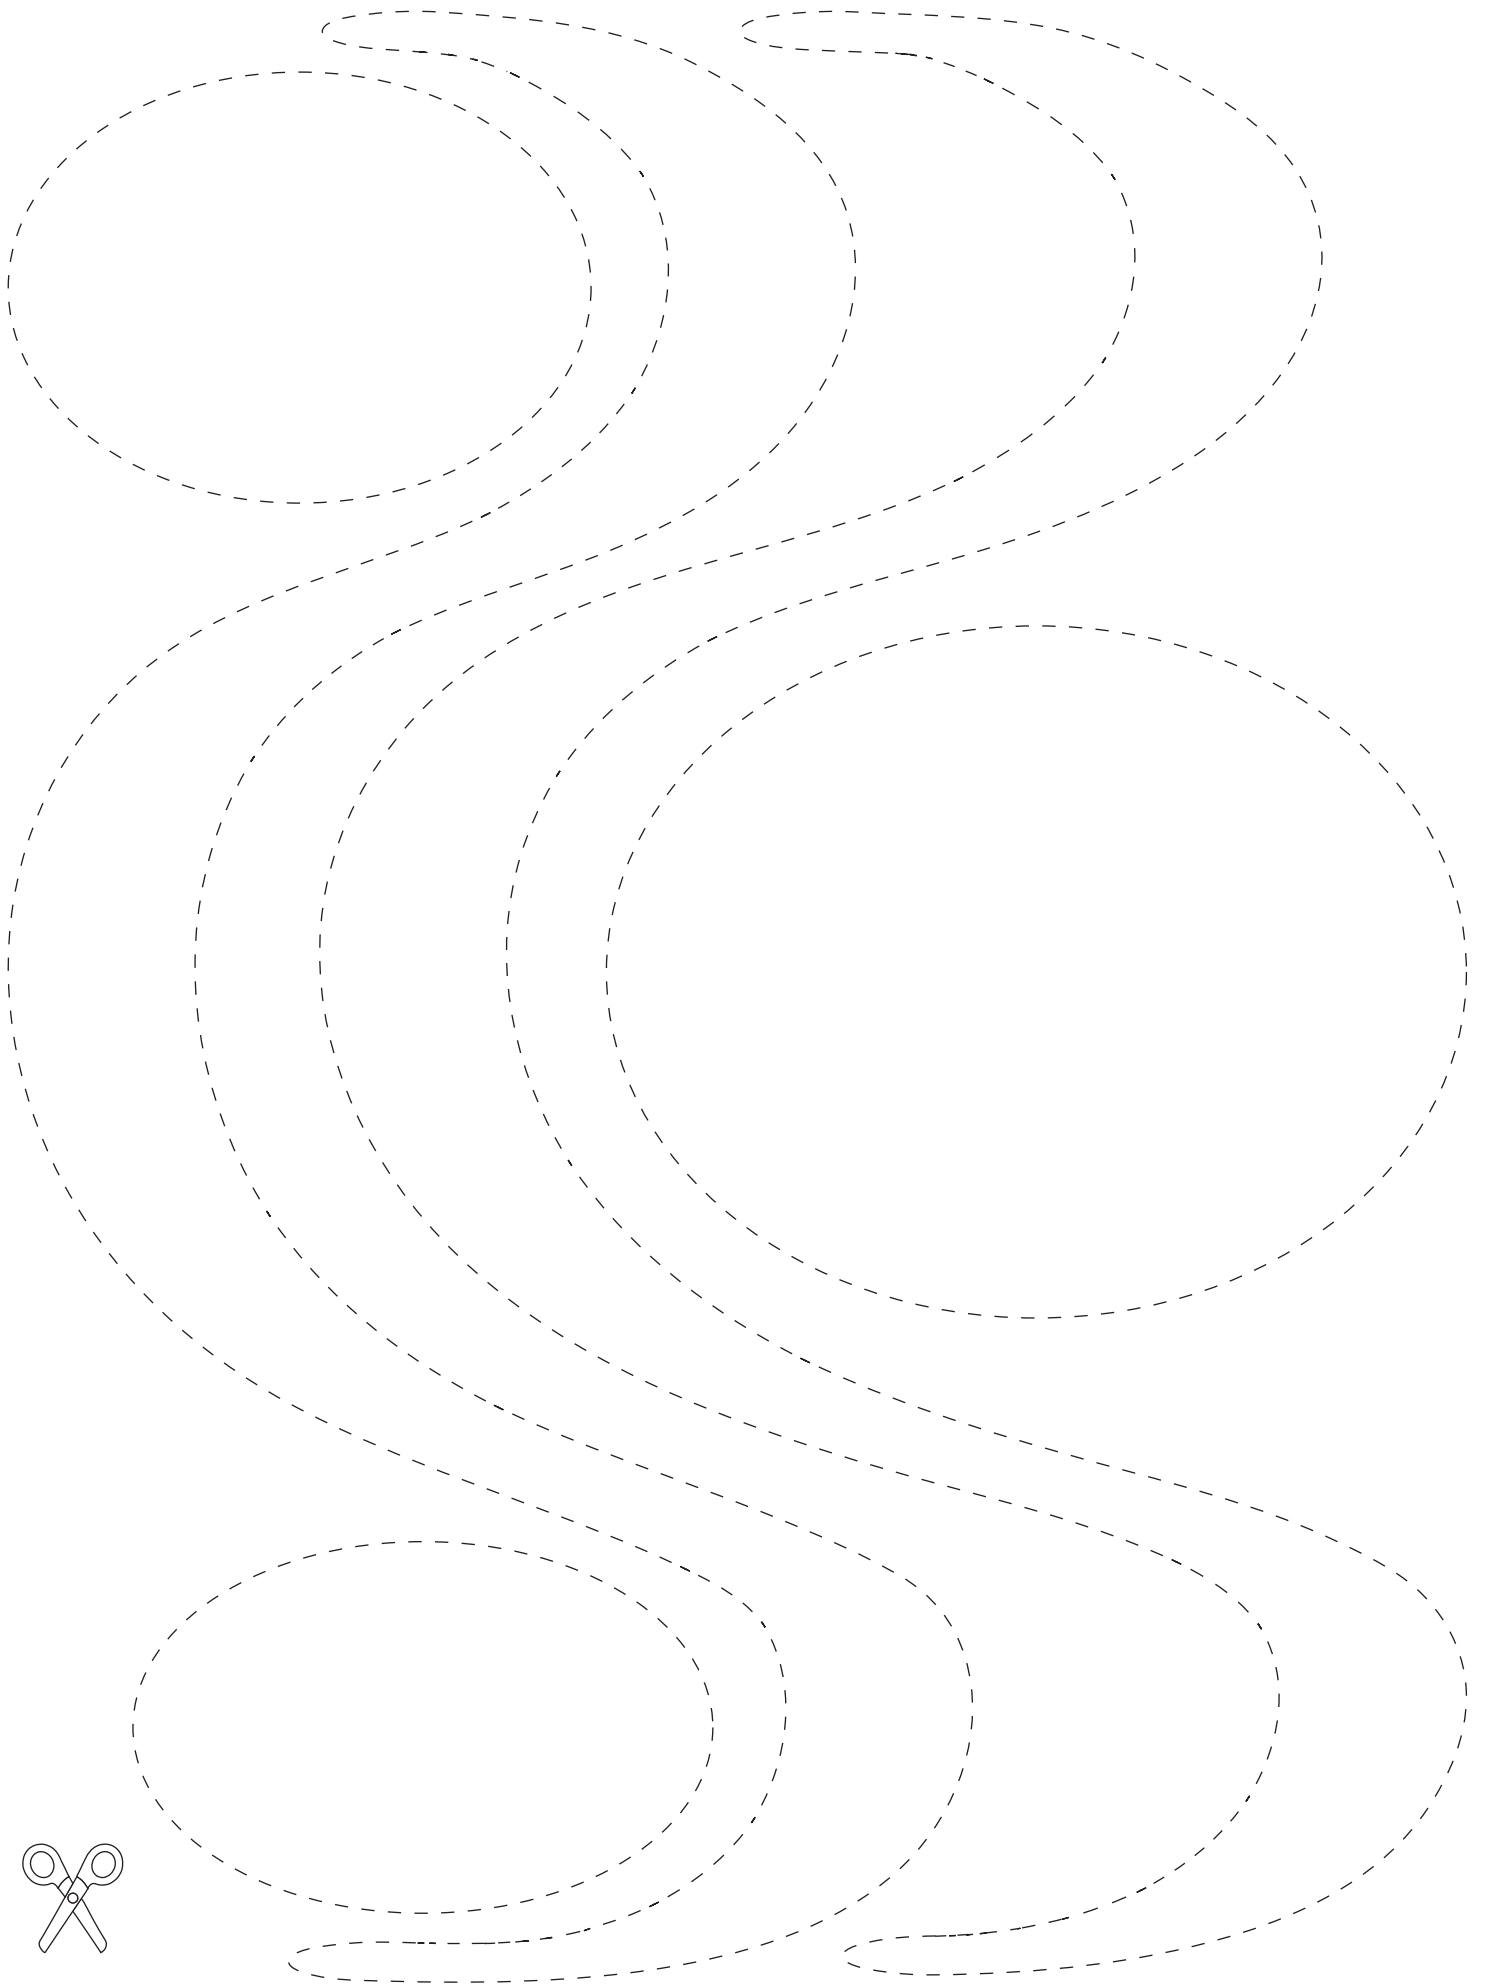

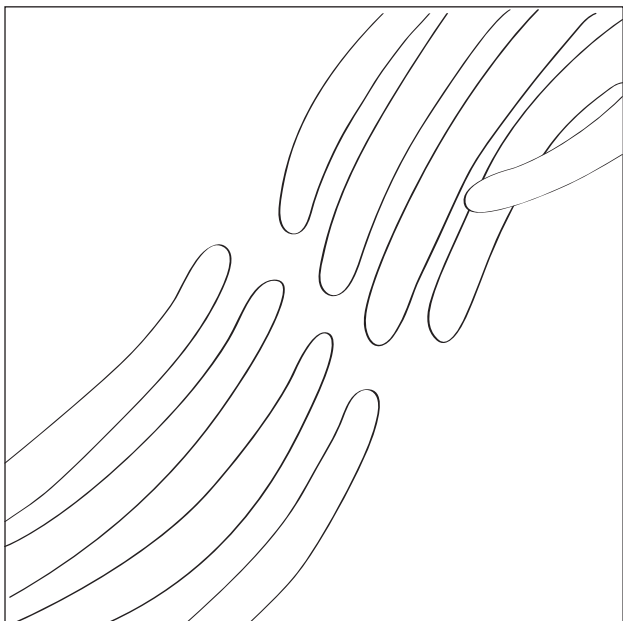

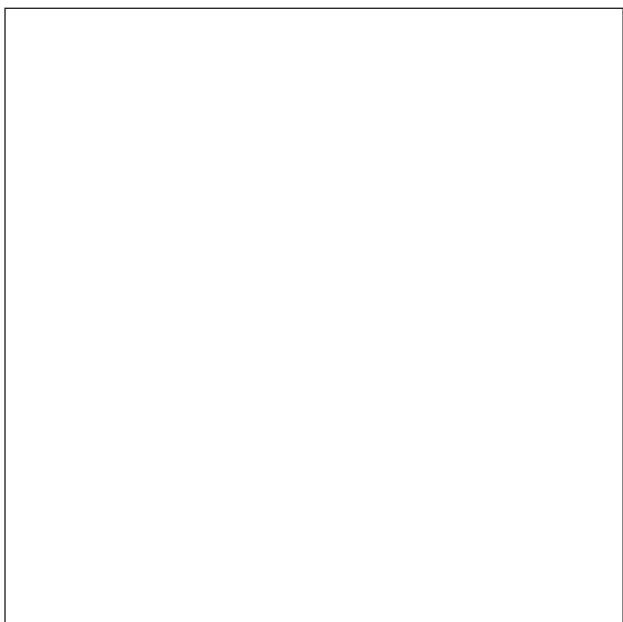

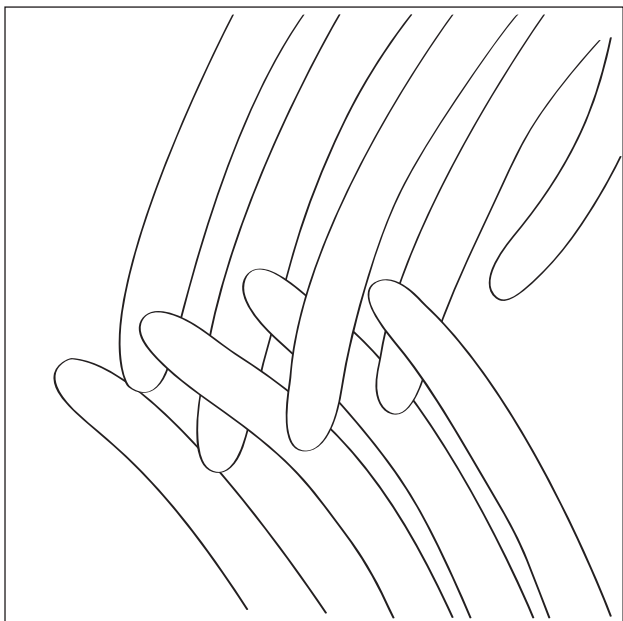

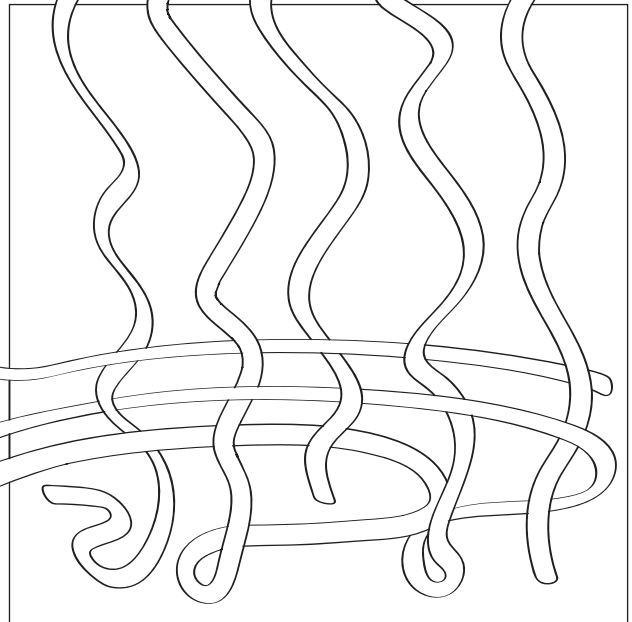

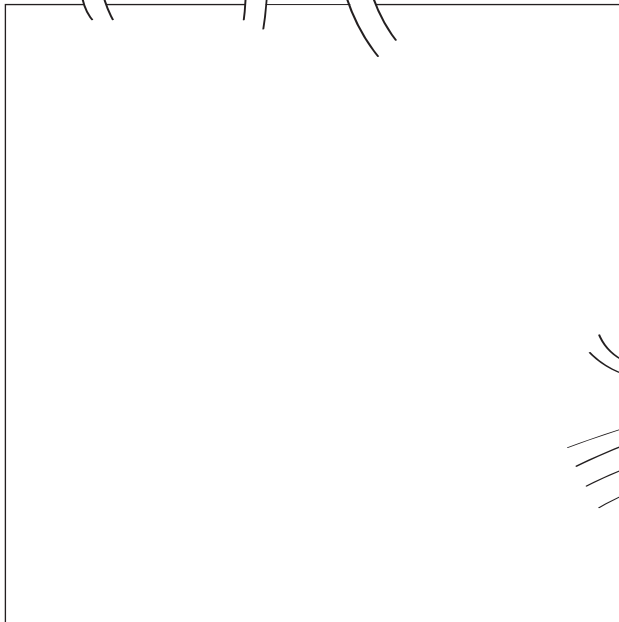

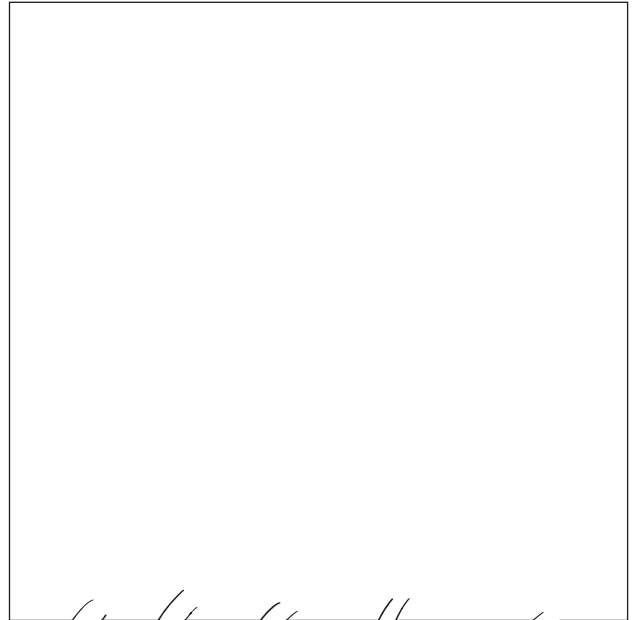

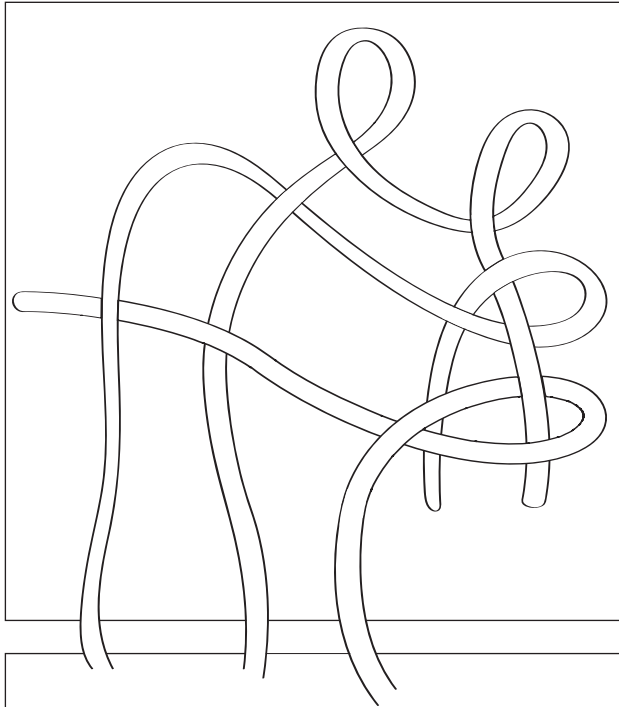

How else can hands be joined?

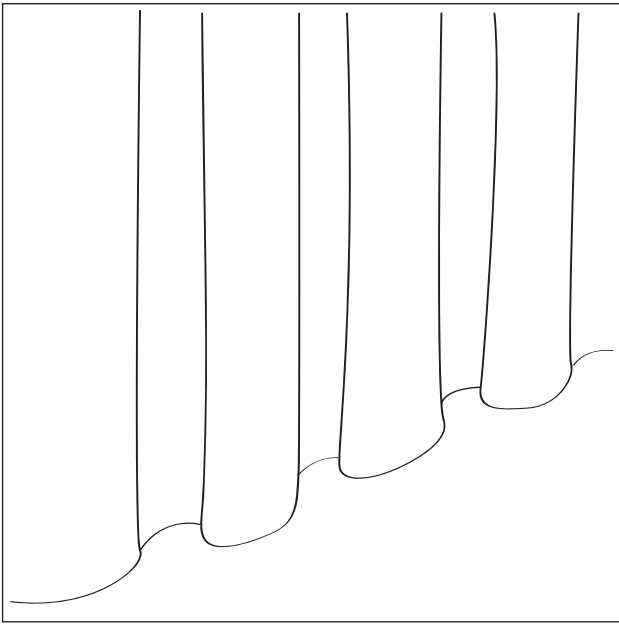

¿De qué otra forma se pueden unir las manos?

How else can a net be woven?

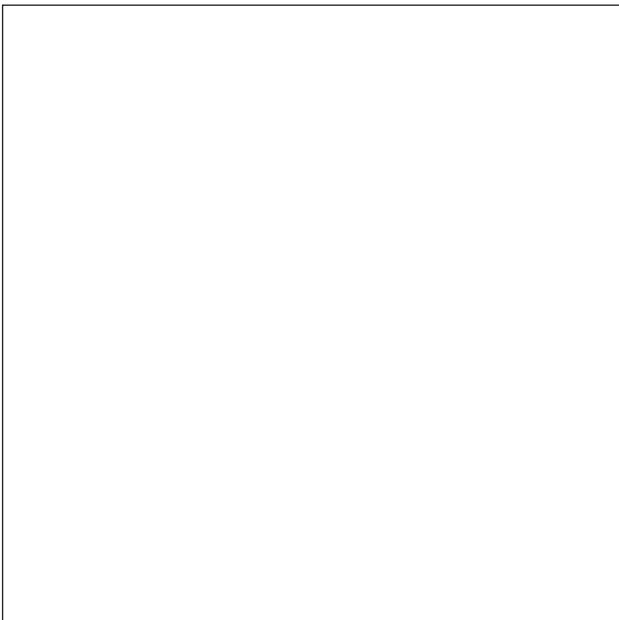

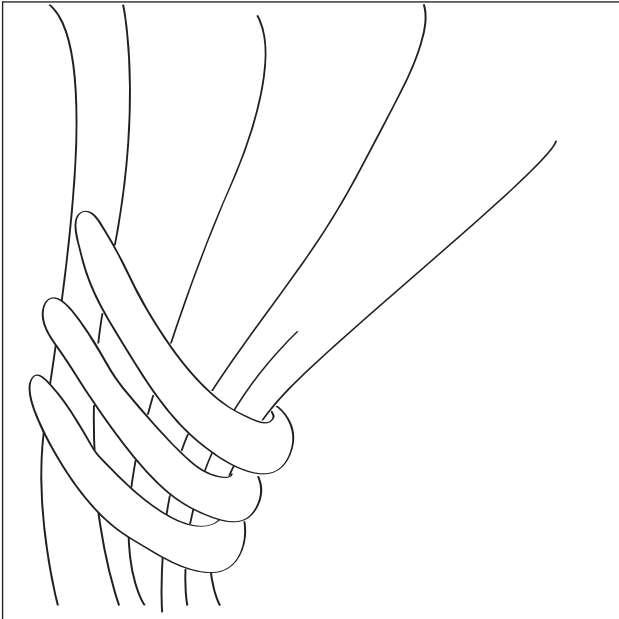

¿De qué otra forma se puede tejer una red?

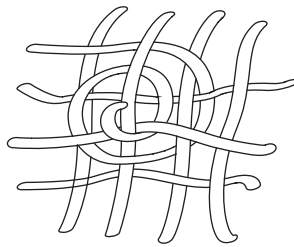

What is hidden behind the curtain?

¿Qué se esconde detrás de la cortina?
